

ESD Floor Marking Tape

General Description

ESD self-adhesive floor marking tapes for identification and awareness of electrostatic protected areas.

Application

- Indication of "ESD Protected Area", "ESD Controlled Area", "ESD Safety Area"
- Safety Marking

Composition and Technical Data

Composition :

- Antistatic treatment
- PET Film (15 microns)
- PVC Film with printed " ESD Symbol " and " ESD Protected Area " (100 microns)
- Antistatic treatment
- Antistatic acrylic adhesive (30 microns)

Color : Black Printing " ESD Symbol " and " ESD Protected Area " on yellow

Thickness (mm) : 0.145mm

Surface Resistivity : $10e7 \sim 10e9$ ohm/sq

Width & Length : 50mm (W) x 33M (L)
