

ESD Grid Tape

Construction

Metallized PET film with ESD Symbol and carbon grid printing

Material Composition : Carbon Printing

Metallized PET (25microns)

Antistatic treatment

Antistatic acrylic adhesive (25microns)

General Description

Our grid tape is anti static treated and constructed with a metallized PET film. This tape is ideal for EMI shielding or sealing ESD sensitive bags or containers

Technical Data

Surface Resistivity : Adhesive : $10e7 - 10e9$ / Back : $10e8 - 10e9$ ohm/sq

Thickness : 50microns

Size(Inch) : 1/2, 1, 3/4, 2 (Width) x 50 M (Length)

Packing: 25mm x 50M / roll - 100 rolls/ctn

50mm x 50M / roll - 50 rolls/ctn
